

23rd Annual NCMCA Sigmon Memorial Scholarship at App State

2024-12-03

The 2024 NCMCA Sigmon Memorial Scholarship at App State was a huge success! Over thirty students participated in the competition to design and model a hypothetical masonry in-fill building section as a graded class assignment. The winning project earned the student's tuition awards from the NCMCA Sigmon Memorial Scholarship Fund named in memory of Randy, David, and Dwayne Sigmon. Congratulations to Quintin Bailey and James Garrett for winning this year's Sigmon Memorial Scholarship with their masonry design titled "Modern Divide".
